## GREAT IMPROVEMENT IN DENTISTRY.

The attention of the public is called to a great discovery in Dentistry.

## THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hitherto used.

I have secured Letters Patent for the United States, England and France.

The improvement is not in material, but in the construction, which secures the atmospheric pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, to wit, the Counties of Franklin, Washington, Chittenden, Lamoille and Grand Isle. Those wishing to avail themselves of such improvement, will call on

## Claim Agency.

All invalid pensioners who have lost a hand or foot, or have incurred disability equivalent to the loss of hand or foot, are entitled to a large increase of pension.

All pensioned widows of soldiers or sailors are entitled to an increased pension of two dollars per month for each child under sixteen years of age.

Claims of the above nature, and for arrears of pay, officers' extra pay for horses lost in the U. S. service, commutation of rations of prisoners of war and prize money, will be promptly prosecuted by application by letter, enclosing discharge from service, will be attended to and the necessary papers returned to applicant for signature, &c.
